Anterior Segment Surgery Update
on Saturday, October 14, 2017 to be held at:
Wills Eye Hospital, 840 Walnut Street, Philadelphia, PA (Auditorium -- 8th Floor)

Brandon D. Ayers, MD and Robert S. Bailey, MD
Program Chairs

Activity Description:
The Anterior Segment Surgery Update course will focus on addressing gaps in participants practice related to the surgical management of the anterior segment. Topics will include Advanced Corneal Surgery; Zonular Deficiency; IOL Fixation; Iris Repair/Replace and IOL Calculations. Video case presentations will demonstrate the use of the various tools and techniques, didactic presentations and panel discussions will help participants integrate these techniques into practice.

At the conclusion of this educational activity, participants should be able to:
• Integrate into practice new surgical techniques that can assist in difficult surgical situations and improve patient safety and surgical outcomes
• Learn what newer technologies are available for assisting anterior segment surgery and how to apply that technology into practice
• Assess the efficacy of new materials that can assist with anterior segment surgery
