

 Wills Eye Hospital

185th Anniversary

academic calendar

*Programs for Ophthalmologists, Residents,
Fellows, and Allied Health Professionals*

2017 / 2018

Julia A. Haller, MD

OPHTHALMOLOGIST-IN-CHIEF

“An investment in knowledge pays the best interest.”

— Benjamin Franklin

Here in Philadelphia, a few blocks from where Ben famously flew his kite and a few more from where he is buried, Franklin is justly revered as the architect of much of what makes America great. From bifocals to electricity to the odometer to the first hospital to the first university, Ben was a paradigm-shifting genius nonpareil. His words echo in my ears as I peruse our Wills Eye Hospital academic calendar. For 185 years now, Wills Eye has been renowned for helping eye physicians and surgeons make the world's very best ophthalmic investment: practical, patient-oriented and case based knowledge, that integrates the very latest in research and innovation. Join us on Walnut Street or online or at the AAO in New Orleans or in September in NYC as we continue to strive relentlessly to make your investment realize rewards that pay back again and again, professionally, for the health of your patients. I look forward to seeing you this year!

Warmest regards,

Julia A. Haller

Julia A. Haller, MD

William Tasman, MD Endowed Chair

Professor and Chair, Department of Ophthalmology

Sidney Kimmel Medical College at Thomas Jefferson University

Leadership

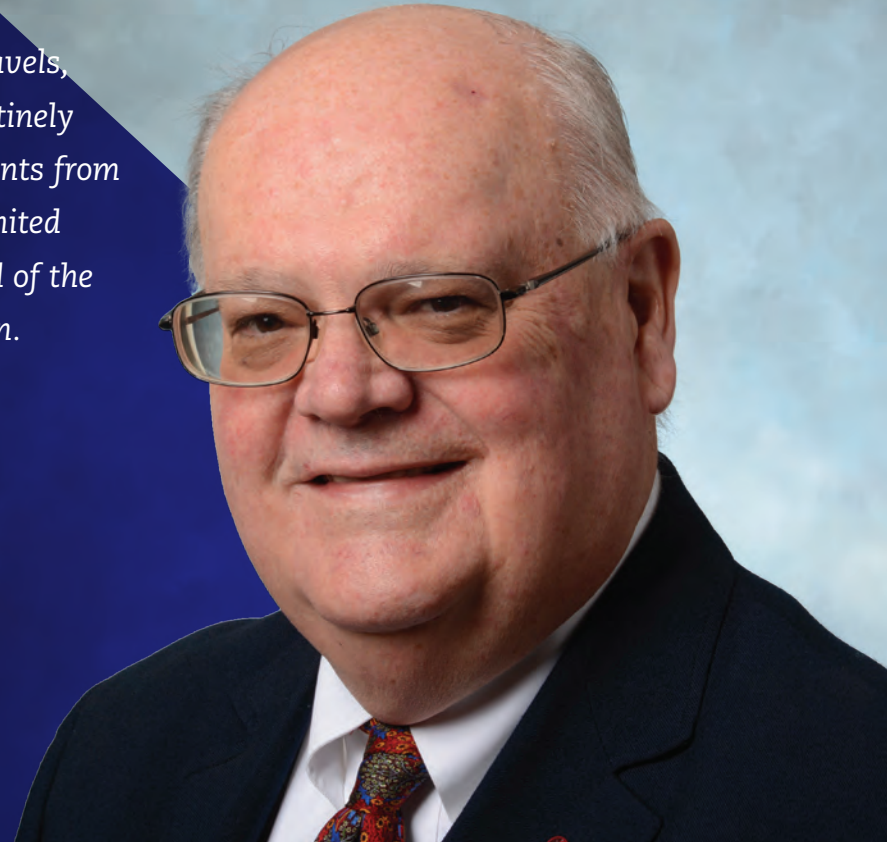

Ralph C. Eagle, Jr., MD

DIRECTOR, CONTINUING MEDICAL EDUCATION

Wills Eye streams knowledge to the world! During my travels, I have met ophthalmologists from other countries who routinely watch Chiefs' Rounds online. Ophthalmologists and Residents from India, Africa, the Middle East and Europe as well as the United States enjoy this educational conference. Wills Eye is proud of the global impact our physicians have on ophthalmic education.

Ralph C. Eagle Jr., MD

Primary Eye Care

William S. Tasman, MD

1929 - 2017

Dr. William Tasman was a leading light in ophthalmology and a pillar of Wills Eye

Hospital for more than 50

years. His contributions to the field and to the institution were manifold, his leadership unmatched. A visionary pioneer, innovator, and educator, he served as Wills Eye's Ophthalmologist-in-Chief from 1985 to 2007. The hundreds of residents and fellows he mentored during that time have gone on to prominence in many fields, and careers of consequence and contribution.

Dr. Tasman's legacy endures in the skill and compassion that he instilled in these physicians, in the vision he preserved and restored for his patients, and in the specialty of ophthalmology that he left better than he found it. As Wills' Ophthalmologist-in-Chief Dr. Julia Haller said at his funeral, "Now immortality is his in the lives, careers and memories of those he leaves behind. *Ave atque vale.*"

a final farewell

Presenters, topics, and times are subject to change. These presentations are not affiliated with the official program of the 2017 AAO Annual Meeting. Visit willseye.org/aao2017

We Share What We Learn Every Day

WILLSEYEONLINE.ORG

As a world-class academic medical institution, Wills Eye Hospital is passionate about advancing ophthalmic knowledge and providing meaningful opportunities for learning.

Through the Wills Eye Knowledge Portal, we have established a global connection with physicians, researchers, residents and eye care professionals, all of whom rely on us to share the broad scope of education and innovation that takes place at Wills.

Featured content includes **free online CME**, Resident lectures, surgical videos, Chiefs Rounds, Visiting Professor lecture series, commentary and updates on trends and treatments in ophthalmology from the Wills Eye Alumni Society Newsroom.

Join our community of more than 10,000 users worldwide who depend on the Knowledge Portal for professional development, thought leadership and insight, and unparalleled content.

Registration is free. Sign up today!

chiefs rounds

Can You Guess the Diagnosis?

LIVE STREAMED

During Chiefs Rounds, interesting cases are presented as unknowns by the residents to the service chiefs and attending staff. Lively and educational discussion ensues.

With a clinical volume of more than 300,000 patients a year, Wills Eye is a treasury of mystery cases.

On Friday mornings, thousands of ophthalmologists from around the world tune in to discover the latest in management of these often complex and difficult cases, from clinical presentations and differential diagnoses to treatment options and patient outcomes.

Join us on Friday mornings at 7 AM (Eastern Time) for the live stream of this vital and engaging teaching tool in medical education. Register at willseye.org/webinars
