

Form-2 Investigational or Non-Formulary Drug Statement

Use this Form when the Research Study Proposal involves any investigational use of drugs **or** any use of Non-Formulary drugs to be dispensed on the 7th Floor WEH.

Study Title:

Principal Investigator:

1. Name(s) and/or Code Number of Drug:
2. Form(s) and Strength(s) of Drug:
3. Drug(s) Supplied by Whom?
4. Mixing, Reconstitution and/or Dilution of Drug(s):
5. Therapeutic Application:

6. Dose(s) of Drug – Include Normal Dose per Protocol and any Variation from that Dosage:

7. Special Storage Requirements (Other than Normal Room Temperature, Humidity, and Lighting) for Drug:

8. Basic Pharmacologic Category of Drug, Chemical Formula, Generic Name, and Pharmacologic Activity:

9. Medication to be Used by the Following
 - Inpatients
 - Outpatients
 - Inpatients and Outpatients

10. Medication Stored by the Following:
 - Inpatient Pharmacy
 - Outpatient Pharmacy
 - Other:

11. Medication Dispense by the Following:
 - Inpatient Pharmacy
 - Outpatient Pharmacy
 - Other:

12. In Case of Emergency, Name and Area and Individual (Other than Pharmacy) where Medication Records are Available (Drug Code, Patient/Drug Records, etc):

13. Name(s) of Investigator(s) Authorized to Order Medication:

14. What type of study is this?
15. (a) What are the recognized or possible ophthalmic/topical side or toxic effect of the medication? Attach reports and/or bibliography:
- (b) What measures are to be taken if these effects are manifested?
16. (a) What are the recognized or possible systemic side or toxic effect of the medication? Attach reports and/or bibliography:
- (b) What measures are to be taken if these effects are manifested?
17. What classes or specific medications are contraindicated during the course of this study?
18. What pre-existing conditions or medication will exclude a patient from this study?
19. Principal Investigator's Signature
