

Complicated Cataract Cases: A Multi-Disciplinary Approach

Saturday, February 2, 2019

Wills Eye Hospital, 840 Walnut Street, Philadelphia, PA (Auditorium 8th Floor)

Registration and Continental Breakfast: 7:30am, Program: 8:00am-12:15pm

Robert D. Lehman, Jr., MD

Program Chair

Conference Description:

This conference will focus on **Cataract Surgery** as a constantly changing area of ophthalmology, needing new techniques and technologies as well as new uses for existing technologies. These techniques vary in relation to the diversity of clinical situations encountered in the day-to-day practice of ophthalmology. For many physicians in community ophthalmic practice, the exposure to these new strategies is limited to journals and periodicals or "word-of-mouth" information from colleagues. Through this conference, participants will develop Best Practices by reviewing case presentations from the presenters and be able to discuss its complexities.

At the conclusion of the course, participants should be able to:

- Recognize complex presentations involving both cataract and subspecialty issues where misdiagnosis leads directly to suboptimal clinical outcomes
- Improve intraoperative management of complex cataract cases as well implementing/ Practicing the optimal management of complications occurring during more routine cataract cases
- Improve their care of these complicated cataract patients by improving and optimizing the postoperative management, a process that can directly lead to improved surgical outcomes

Wills Eye Faculty

Mark H. Blecher, MD
Robert S. Bailey, MD
Robert D. Behar, MD
Omesh P. Gupta, MD
Sadeer B. Hannush, MD

Jonathan S. Myers, MD
S. Gregory Smith, MD
Richard Tipperman, MD
Sidney L. Tyson, MD

Accreditation Statement:

The Wills Eye Hospital is accredited by the ACCME to provide continuing medical education for physicians.

The Wills Eye Hospital designates this live educational activity for a maximum of 4.0 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Full disclosure policy:

All faculty participating in continuing medical education programs sponsored by Wills Eye Hospital are expected to disclose to the program audience any real or apparent conflict(s) of interest related to the content of their presentation(s). Full disclosure will be made at the program.

Complicated Cataract Cases: A Multi-Disciplinary Approach

Saturday, February 2, 2019

Wills Eye Hospital, 840 Walnut Street, 8th Floor Auditorium

Robert D. Lehman, Jr., MD

Program Chair

7:30 am *Registration, Continental Breakfast*

8:00 am **Glaucoma Case Presentations**

Panel members – **Jonathan S. Myers, MD**
S. Gregory Smith, MD
Sidney L. Tyson, MD

- Cataract / Pigmentary Glaucoma
- Post Cataract UGH Syndrome
- Pseudophakic Blebitis

9:15 am **Cornea Case Presentations**

Panel members – **Mark H. Blecher, MD**
Sadeer B. Hannush, MD
Richard Tipperman, MD

- Cataract / Pellucid Marginal Degeneration
- Cataract / Post PKP
- Unhappy Multifocal IOL Patient

10:30 am *Refreshment Break*

10:45 am **Retina Case Presentations**

Panel members – **Robert D. Behar, MD**
Robert S. Bailey, MD
Omesh P. Gupta, MD

- Cataract / Macular Ischemia
- Cataract / Macular Hole

12:00 pm **Questions & Answers**

12:15 pm *End of Program*
