ACADEMIC CALENDAR

Programs for Ophthalmologists, Residents,
Fellows, and Allied Health Professionals

BEERAN MEGHPARA, MD

•

JULIA A. HALLER, MD
Ophthalmologist-in-Chief

Learn continually—there's always "one more thing" to learn. Steve Jobs

I am still learning. Michelangelo at age 87

The life-long learning theme articulated by these two remarkable innovators was echoed by one of our most avid course participants a few weeks ago. Newly retired, he wrote to let us know that he has never enjoyed our offerings more than now, and he continues to relish their imaginative, ever-updated bulletins on Ophthalmology – the noble career calling that has been his life's work.

How very energizing to hear, as we publish our Wills Eye Hospital 2021-2022 Academic Calendar, this appreciation for the special sense of creative excitement, and zeal for excellence we bring to our programs! That is true every year, but never more so than this one as we look forward to a return to in-person interchange on site here at 840 Walnut Street, as well as our continued virtual engagement online.

What's new at Wills? *Breakfast with Wills Eye*, the third Tuesday of every month at 7 a.m. with host cornea specialist Zeba A. Syed, MD and Wills Eye's world-renowned faculty discussing the latest clinical innovations and challenges in ophthalmology.

Our *Guest Lecture Series* featuring engaging presentations by leading experts on topics relevant to ophthalmologists, physicians, and healthcare professionals. Recent speakers included Emily Chew, MD, Chief, Clinical Trials Branch, NEI, and Lisa Nijm, MD, JD, CEO of Women in Ophthalmology.

Our *Retina Imaging and Surgical Conferences*, expanded in the last year, and now including hundreds of online participants such as distinguished global colleagues

chiming in from Great Britain and South America. Our Friday morning *Chiefs Rounds* have also grown more international audiences during the pandemic, while maintaining their renowned spontaneity, faculty repartee, and fascinating case selection.

We have relaunched our Wills Eye Knowledge Portal! The new website offers a valuable, user-centric and responsive resource across all platforms and devices, features new categories for easier access to live, virtual, and on-demand courses, and provides a streamlined mechanism for claiming CME credit.

We hope you will join us again, or anew, on our innovative and energizing Wills Eye Hospital trajectory of life-long learning, as we all hone our skills and knowledge base to confront the challenges of the future, for the patients in our care.

From the ceiling of the Sistine Chapel to the personal computer, to the perfect cataract operation, we all recognize true works of art, and respect the hard work and commitment to ideals that they epitomize! We at Wills Eye Hospital look forward to partnering with you for yet another year in the Art of Medicine.

Warmest regards,

JULIA A. HALLER, MD

*Ophthalmologist-in-Chief and William Tasman, MD,
Endowed Chair | Wills Eye Hospital
Professor and Chair of Ophthalmology |
Sidney Kimmel Medical College at Thomas Jefferson University*

Wills remains committed to excellence in medical education in these challenging times. During COVID-19, computer technology and live-streaming have markedly increased the number of physicians throughout the nation and the world who virtually attend our popular Chiefs Rounds, Saturday updates and Review Course.

Be sure to register for our newly renovated Wills Eye Knowledge Portal! This educational resource contains a wealth of CME and non-CME events! Now hosted on the CloudCME® platform, the Portal provides on-line registration, down-loadable CME certificates and transcripts of your Wills CME activities.

47TH ANNUAL OPHTHALMOLOGY REVIEW COURSE

MARCH 5-9, 2022

"Wonder is the beginning of wisdom." – Socrates

This course is a comprehensive and intensive review of ophthalmology for practicing ophthalmologists and ophthalmology residents and fellows. Topics taught by our world-renowned faculty range from anatomy, corneal diseases, eyelid, glaucoma, imaging, immunology, neuro-ophthalmology, oncology, orbit, ocular pathology, pediatrics, pharmacology, physiology, optics and refraction, and retina.

COURSE DIRECTOR: RALPH C. EAGLE, JR., MD

TOPICS INCLUDE:

- Anatomy and Embryology
- Basic Immunology and Clinical Uveitis
- Corneal and External Disease
- Eyelid and Lacrimal System
- Glaucoma
- Neuro-Ophthalmology
- Ocular Genetics
- Ocular Pathology
- Ophthalmic Tumors
- Optics and Refraction
- Pediatric Ophthalmology
- Pharmacology & Therapeutics
- Physiology
- Retina and Vitreous
- Strabismus and Amblyopia

cme@willseye.org

74TH ANNUAL WILLS EYE HOSPITAL CONFERENCE

CONFERENCE CHAIR: SUNIR J. GARG, MD

THURSDAY, MARCH 10

Free Paper Session

Held at Wills Eye Hospital

FRIDAY, MARCH 11

Physician Program featuring Ellis Lecture
Technicians & Administrator Programs
Academic Poster Exhibition

SATURDAY, MARCH 12

Physician Program featuring Bedell,
Bedrossian and Leopold Lectures
Gettes Symposium
Technicians Hands-On Workshop

Information/Registration:
www.willsconference.org

MARCH 10-12, 2022

Philadelphia Marriott Old City

This three-day conference, designed for comprehensive ophthalmologists, specialists, and allied health personnel, features presentations by nationally recognized physicians on the clinical, diagnostic, and therapeutic approaches to eye problems in all ophthalmic subspecialties.

JANUARY 2022

SUN	MON	TUE	WED	THU	FRI	SAT

— TO —
08

Atlantic Coast Retina Club and Macula 2022
Program Chairs:
JULIA A. HALLER, MD; CARL D. REGILLO, MD;
CAROL L. SHIELDS, MD; ARUNAN SIVALINGAM, MD;
ALEXANDER J. BRUCKER, MD
Faculty of the Wills Eye Hospital Retina and
Ocular Oncology Services and Invited Guests
Featuring
11th Annual J. Arch McNamara Memorial Lecture
R. V. PAUL CHAN, MD, MSC, MBA
Head, Department of Ophthalmology, the John H.
Panton Professor of Ophthalmology, Director, Pediatric
Retina and Retinopathy of Prematurity Service Co-
Director, Vitreoretinal Fellowship Program
University of Illinois College of Medicine
Chicago, IL

WEDNESDAY
12

Visiting Professor
Cornea
SUMITRA S. KHANDELWAL, MD
Medical Director, Lions Eye Bank of Texas
Associate Professor, Baylor College of Medicine
Houston, TX

SATURDAY
15

**Ophthalmology for Pediatricians,
Primary Care Physicians and
Other Allied Health Professionals**
Program Chair:
BRUCE M. SCHNALL, MD
Faculty of Wills Eye Pediatric Ophthalmology
and Ocular Genetics Service and Invited Guests

02

Anterior Segment Surgery Update
Program Chairs:
DOUGLAS M. WISNER, MD
and BRANDON D. AYRES, MD
Faculty of Wills Eye Cornea Service
and Cataract & Primary Eye Care
Education in Wills Eye Auditorium
and the MOST Laboratory

SATURDAY
30

Cornea Update
Program Chairs:
ADITYA KANESA-THASAN, MD
and BEERAN MEGHPARA, MD
Faculty of Wills Eye Cornea Service

SATURDAY
09

Neuro-Ophthalmology Update
Program Chair:
ROBERT C. SERGOTT, MD
Co-Chairs: MARK L. MOSTER, MD,
SARAH E. THORNTON, MD
Faculty of Wills Eye Neuro-Ophthalmology Service

MAY 2022

8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

WEDNESDAY
04

Visiting Professor Oculoplastic

ELIZABETH A. BRADLEY, MD
Associate Professor of Ophthalmology,
College of Medicine
Program Director, RST-Oculoplastic/Orbital Surgery
Mayo Clinic
Rochester, MN

SATURDAY
21

Retina Update

Program Chairs:

Faculty of the Wills Eye Retina Service
and Invited Guests

Featuring

P. Kenneth Nase Memorial Lecture

DAVID M. BROWN, MD

Director of Research, Retina Consultants of Texas
Clinical Professor of Ophthalmology,
Baylor College of Medicine
Vice-Chair for Research, Blanton Eye Institute,
Houston Methodist Hospital
Houston, TX

WEDNESDAY

01

Visiting Professor

Center for Academic Global Ophthalmology

N. VENKATESH PRAJNA, DO, DNB, FRCO

Chief, Medical Education

Aravind Eye Care System

Madurai, India

Presentations by Eliza L. Barnwell, MD, CAGO
Fellow, and Residents of Wills Eye Hospital

WILLS EYE AT AAO 2021 NEW ORLEANS

Wills Eye Meet the Experts – Booth #4415

NOVEMBER
SATURDAY
13
2021

11AM MARK H. BLECHER, MD
Cataract & Primary Eye Care
"Presbyopia Correcting IOLs: What's New and What's Coming"

12PM CAROL L. SHIELDS, MD
Ocular Oncology
"Choroidal Nevus and Melanoma 2021"

1PM ALISON WATSON, MD
Oculoplastic & Orbital Surgery
"Thinking Outside the Bleph: How to Optimize Upper Face Rejuvenation with Brow Augmentation"

2PM ALLEN C. HO, MD
Retina
"A Ten Minute Gene Therapy Master Class - Where are We and Where are We Going?"

3PM BEERAN MEGHPARA, MD
Cornea
"New Perspectives on an Old Dilemma: Fuchs Dystrophy and Cataract Surgery"

NOVEMBER
SUNDAY
14
2021

11AM CARL D. REGILLO, MD
Retina
"Management of Retained Lens Material: Optimizing Outcomes"

12PM JONATHAN S. MYERS, MD
Glaucoma
"New Perimeters that Cost Less, Improve Workflow and are Preferred by Patients"

1PM BRANDON D. AYRES, MD
Cornea
"IOL Exchange from Mundane to Insane"

2PM JOSE PULIDO, MD, MS, MBA, MPH
Retina
"So You Ordered an IRD Gene Panel. Now What!?"

3PM JULIA A. HALLER, MD
Retina
"Retinal Vein Occlusions"

Presenters, topics, and times are subject to change. These presentations are not affiliated with the official program of AAO 2021.

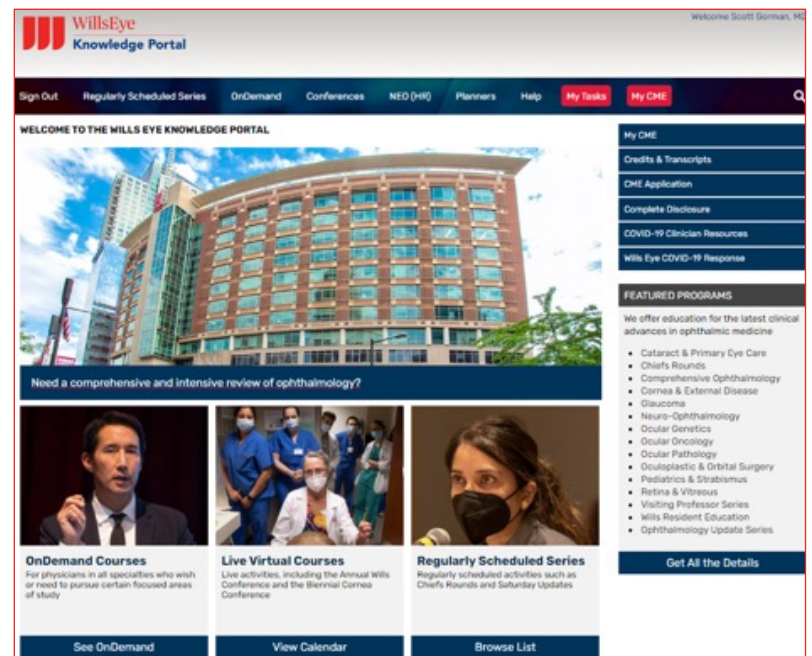

INTRODUCING THE NEW WILLS EYE KNOWLEDGE PORTAL

Welcome to the state-of-the-art Wills Eye Knowledge Portal!

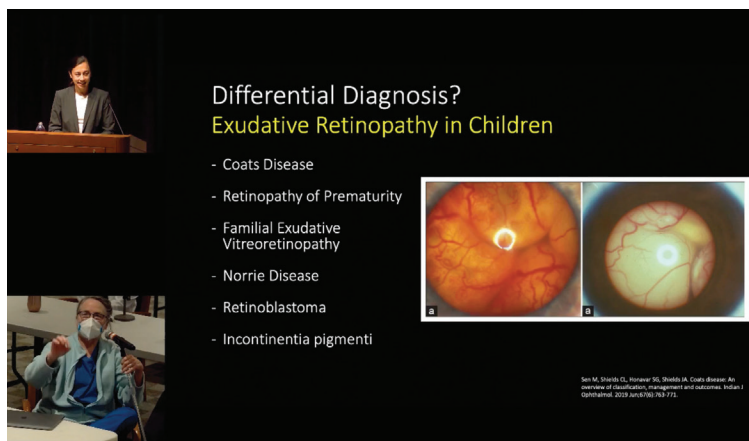

Physician benefits include:

- Texting or scanning attendance by mobile phone.
- High-definition quality OnDemand video streaming.
- Automated course reminders for faculty and learners.
- Seamless process to earn American Board of Ophthalmology (MOC) points.
- 24/7 access to CME certificates, event registration receipts, course transcripts.
- View and annotate presenter slides in real time via the CloudCME Mobile App.

Please navigate to willseye.cloud-cme.com and sign up for a new user account today! For more information contact us at cme@willseye.org

W I L L S E Y E L I V E

Stay connected with us by signing up for e-blasts at willseye.org/webinars

At Wills Eye Hospital, world-wide access to education helps us to reach our goal of preserving sight and improving clinical care of patients with eye disease. Throughout the year, Wills Eye provides many opportunities to access live-streamed educational experiences online.

CHIEFS ROUNDS

On Friday mornings, the tables are turned during Chiefs Rounds when residents present mystery cases to attendings of Wills Eye Hospital. Residents follow the thought processes of the attendings from clinical presentation to differential diagnosis and management.

RETINAL IMAGING AND SURGICAL CONFERENCES

The Wills Eye Retina Service Imaging and Surgical Conferences are interactive engaging forums during which Retina fellows present multi-modal imaging of interesting cases and their management to the attendings of Wills Eye Hospital.

SATURDAY UPDATES

The Wills Eye Saturday Update Series is the premier venue for physicians from each service area to present the latest procedures, research and treatment in their subspecialty.

Registration required: willseye.cloud-cme.com

THE WILLIAM MAUL MEASEY OPHTHALMIC SURGERY TRAINING (MOST) LAB INSPIRES A NEW GENERATION OF OPHTHALMIC TRAINING

The Measey Ophthalmic Surgical Training (MOST) Lab enables residents, fellows, and faculty to learn surgical concepts on the most advanced, state-of-the-art microsurgical equipment and to use new devices and instruments as they are developed.

The MOST Lab has:

- Improved the frequency and quality of surgical training, including a new surgical curriculum with biweekly sessions to help junior residents acquire skills rapidly while operating in a safe and efficient manner.
- Standardized virtual reality training via the EyeSi surgical simulators.
- Tripled course offerings on novel surgical instruments, techniques, and devices.
- Created in-person and remote mentorship opportunities with a wider range of faculty, which dramatically benefits trainees via exposure to different surgical approaches.
- Allowed residents to maintain and supplement their surgical skills with simulation and tissue training during the temporary decrease in surgeries during the pandemic's early outbreak.

This facility is open for additional surgical training and to industry partners who wish to host a wet lab. For information or reservation inquiries, please contact Marie Fiorillo at mfiorillo@willseye.org

WITH THANKS TO THE MEASEY FOUNDATION
FOR ITS GENEROUS SUPPORT OF OUR MISSION

Allen C. Ho, MD utilizing a 3D heads up surgical system for teaching vitreoretinal surgery.

In the eye, where the surgical field can be less than 1 cm³, stereopsis makes an enormous difference in understanding and teaching surgery. With additional funding from the Benjamin and Mary Siddons Measey Foundation, three heads-up digital microscope systems have been procured to give Wills surgeons and trainees several benefits including:

- Opportunities to train and engage additional residents, medical students, and OR staff (as everyone in the room can view the surgery in stereopsis).
- Proper surgical ergonomics, and in some cases, additional viewing options not possible with traditional microscopy, including color highlighting of tissues of interest and intraoperative optical coherence tomography to identify tissue planes.
- Patient safety improvements, as the patient's information and surgical plan can be overlaid on the screen to verify appropriate implants and incision vectors in real-time.
- 3D surgical videos that can help trainees understand the minute complexities of ophthalmic microsurgery, reviewed after the case and in a collaborative group learning environment.

IMPACTING OUR MISSION

Dr. Solomon Luo (left) and Wills Ophthalmologist-in-Chief Dr. Julia A. Haller pictured with the 2021 Luo Family Distinguished Service Award recipients (left to right) Drs. Joseph A. Anaya, Dilru Amarasekera, and Charles Brodowski.

Approaching 200 years of excellence in the delivery of ophthalmology care, education and research, Wills Eye Hospital is looking towards the next century of preserving and restoring sight. Our ability to do so lies in the continuous development of our programs, an innovative spirit, and an inclusive and global mindset. When we invest in our people, programs, and facilities, we invest in our future.

To learn more about our strategic initiatives and philanthropic priorities, visit the Wills Eye Foundation website at www.willseye.org/giving or call (215) 440-3154.
