ACADEMIC CALENDAR AT-A-GLANCE

CONFERENCES	SATURDAY UPDATES		VISITING PROFESSORS	
October 20-21, 2023 24 th Biennial Cornea Conference	September 30, 2023 Complicated Cataracts: A Multi-Disciplinary Approach	March 2, 2024 Oculoplastic: Orbital Surgery	September 13, 2023 Cornea & External Disease	January 10, 2024 Refractive Surgery
November 4-5, 2023 Wills Eye Meet the Experts During American Academy of Ophthalmology Annual Meeting	December 2, 2023 Oculoplastic: Eyelid & Lacrimal	March 16, 2024 Anterior Segment Surgery	October 11, 2023 Vitaliano B. Bernardino, Jr., MD Lecture in Pathology	February 21, 2024 Cataract & Primary Eye Care
November 10, 2023 40 th Joseph H. Calhoun, MD Pediatric Ophthalmology Forum	December 9, 2023 Retina & Vitreous (J. Arch McNamara, MD Memorial Lecture)	April 13, 2024 Retina & Vitreous (Joseph I. Maguire, MD Memorial Lecture)	October 19, 2023 The Edward A. Jaeger Endowed Lectureship	March 27, 2024 The Mid Atlantic Retina/ Wills Eye Retina Lecture in Retina
February 24-28, 2024 49 th Annual Ophthalmology Review Course	January 20, 2024 Ophthalmology for Pediatricians, Primary Care Physicians and Other Allied Health Professionals	April 27, 2024 Neuro-Ophthalmology	November 9, 2023 Joel Porter, MD, Wills Eye Resident, Class of 1970 Lecture in Pediatric Ophthalmology	May 8, 2024 Oculoplastic & Orbital
March 7-9, 2024 76 th Annual Wills Eye Conference	February 3, 2024 Glaucoma	May 4, 2024 Controversies in Cornea (The Peter R. and Ruth Laibson Endowed Cornea Lecture)	December 13, 2023 Rick & Karen Wilson Lecture in Glaucoma	May 29, 2024 Neuro-Ophthalmology
				June 12, 2024 Academic Global Ophthalmology (David M. Paton, MD Lecture)

• **JULIA A. HALLER, MD**
Ophthalmologist-in-Chief

“Education is the transmission of knowledge, skills, and character traits.”

Wikipedia

“Education is learning what you didn’t even know you didn’t know.”

*Daniel J. Boorstin, 1914-2004,
historian, professor, attorney*

I am unfailingly delighted by lectures and symposia at Wills Eye Hospital. There is always something I didn’t even know I didn’t know to discover.

And the terrific **personality** of the learning process here is a unique “secret sauce” that has characterized the Wills Eye Hospital contributions to the specialty of Ophthalmology for almost 200 years. I believe it has to do with what Wikipedia has described as the transmission not only of knowledge, but of skills and character traits.

Our 2023-2024 Academic Calendar is the course catalogue to our next year’s lineup of remarkable speakers, topics, insights and updates—packed with new and innovative information to keep our students, trainees, and colleagues at the tip of the spear of excellence in vision research and eye care.

We hope you will join us on Walnut Street, at the AAO meeting, or online to share in this remarkable adventure we pursue with gusto: continually educating ourselves to take the best possible care of our patients, train our next generation of top flight ophthalmologists, and push forward the boundaries of innovation and research.

I look forward to seeing you here!

Warmest regards,

Julia A. Haller, MD

Ophthalmologist-in-Chief and William Tasman, MD, Endowed Chair | Wills Eye Hospital
Professor and Chair of Ophthalmology | Sidney Kimmel Medical College at Thomas Jefferson University

Since its founding 190 years ago, Wills Eye Hospital has been committed to improving eye care through education. Advances in technology now allow Wills to educate ophthalmologists throughout the nation and the world. During the past year, hundreds of ophthalmologists received CME credits by viewing live-streamed or on-demand courses or conferences on the Wills Eye Knowledge Portal. Free of charge to participants, these outstanding educational events included 11 Saturday Subspecialty Updates and 22 weekly Chiefs Rounds comprising interesting unknown case presentations by residents for diagnosis and discussion. (These popular early Friday-morning rounds are now being re-streamed for participants on the West Coast.) Retina imaging conferences, Visiting Professor Rounds, Saturday Updates, and an on-line version of the Ophthalmology Review Course also are available on demand.

I attend all of our educational activities and am uniformly impressed by their quality, unbiased nature, scientific validity, **and clinical relevance**. Wills Eye's large faculty of world-class clinicians and physician educators are strongly committed to medical education and they do an **outstanding job**.

Tired of staring at your computer? Now that COVID is behind us and masks are off, we welcome physicians who desire personal interaction and socialization to attend our rounds and conferences in person. **Wills welcomes you!!**

Ralph C. Eagle, Jr., MD

FEBRUARY 24-28, 2024

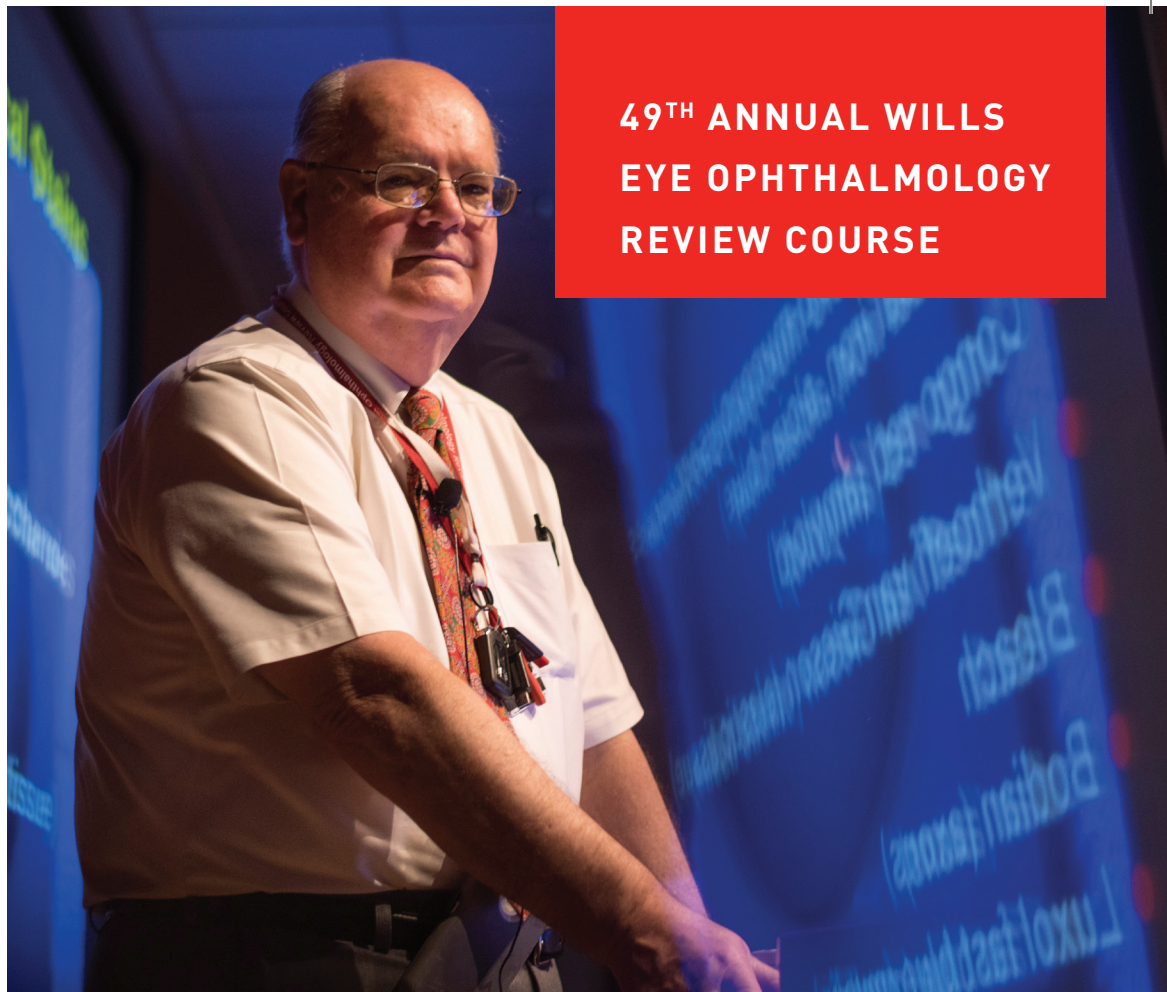

Wills Eye Hospital

COURSE DIRECTOR: RALPH C. EAGLE, JR., MD

This course is a comprehensive and intensive review of ophthalmology for practicing ophthalmologists, ophthalmology residents, and fellows. Registration for the in-person course includes access to digital study resources from our world-class faculty and guest lecturers. Over five days, these experts cover a range of subspecialties, including:

- Anatomy & Embryology
- Basic Immunology and Clinical Uveitis
- Corneal & External Disease
- Eyelid & Lacrimal System
- Glaucoma • Neuro-Ophthalmology
- Ocular Genetics • Ocular Pathology
- Ophthalmic Tumors • Optics & Refraction
- Pediatric Ophthalmology
- Pharmacology & Therapeutics
- Physiology
- Retina & Vitreous
- Strabismus & Amblyopia

FOUNDED BY PHILANTHROPY
DRIVEN BY MISSION
FOCUSED ON YOU

The inaugural **Peter R. and Ruth Laibson Endowed Corneal Lecture** featured Guillermo Armescu, MD. This lecture was recently established by the Laibsons to continue Wills Eye's strong legacy of enriched educational opportunities.

ADVANCING OUR MISSION

The **Wills Eye Foundation** aims to raise funds to advance initiatives in education as well as the other pillars of our mission—clinical care, research, and community outreach. Many of our current educational offerings have been fortunate to have philanthropic support to advance these efforts. Contributions such as the recently endowed lectures by Wills Eye Cornea Chief Emeritus Peter Laibson, MD and the family of longtime educator, Edward Jaeger, MD reflect a desire to help Wills Eye continue to offer the highest quality ophthalmic educational experience available anywhere. We invite you to join them. Contact the Wills Eye Foundation at 215-440-3154, email at giving@willseye.org or visit their website at willseye.org/giving.

The **2nd Annual Edward A. Jaeger, MD Lecture** was presented by alumnus entrepreneur, Marnix E. Heersink, MD. The Jaeger Lecture was established by the Jaeger family to honor the esteemed career and contributions of long-time Wills Eye physician-educator, Edward A. Jaeger, MD.

Over 60 years ago, the Glaucoma Service at Wills Eye Hospital was launched by Dr. Irving Leopold, Dr. George Spaeth, and Dr. Anne Chan. Their foresight, their discoveries, their mentorship, spread the modern discipline of glaucoma across the world.

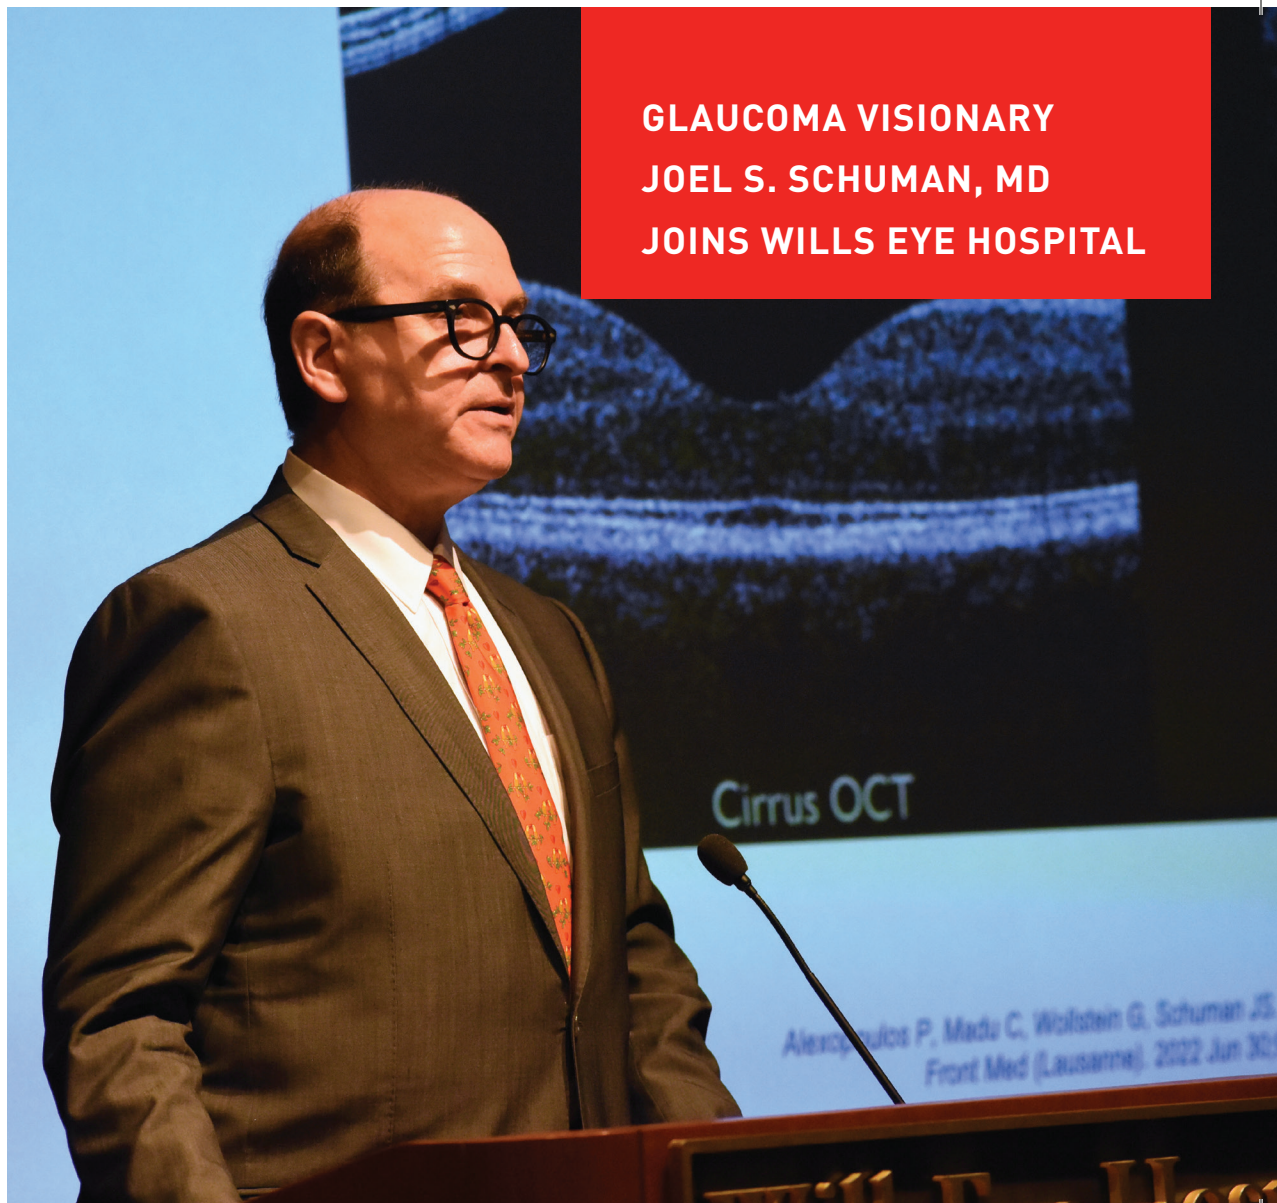

Ready to stand on the shoulders of these giants, renowned clinician-scientist

Dr. Joel Schuman now adds his expertise and remarkable portfolio of research in ocular imaging, aqueous outflow, regenerative ophthalmology, and ocular drug delivery to the Wills Eye team. So many questions in glaucoma have yet to be answered.

WILLS EYE KNOWLEDGE PORTAL

The Wills Knowledge Portal on CloudCME is a fabulous resource of outstanding continuing medical education for ophthalmologists around the globe. Participants can live-stream popular educational events including Chiefs Rounds, Visiting Professor Rounds and our clinically relevant subspecialty updates, or watch them on OnDemand at a time of their choosing. Unable to attend our in-person Ophthalmology Review Course in Philadelphia? You can register for our companion OnDemand Review Course and get up to eleven months' access to 63 hours of lectures and CME credits. The Portal also allows participants to sign-in with their phones and download CME certificates and transcripts.

ADDITIONAL BENEFITS INCLUDE:

- Texting or scanning attendance by mobile phone.
- High-definition quality OnDemand video streaming.
- Automated course reminders for faculty and learners.
- 24/7 access to CME certificates, event registration receipts, course transcripts.
- View and annotate presenter slides in real time via the CloudCME Mobile App.

Be sure to register for an account at willseye.cloud-cme.com.

For more information contact us at cme@willseye.org

At Wills Eye Hospital, world-wide access to education helps us to reach our goal of preserving sight and improving clinical care. Throughout the year, Wills Eye provides many opportunities to access live-streamed educational experiences online.

CHIEFS ROUNDS

On Friday mornings, the tables are turned during Chiefs Rounds when residents present mystery cases to attendings of Wills Eye Hospital. Residents follow the thought processes of the attendings from clinical presentation to differential diagnosis and management.

RETINAL IMAGING AND SURGICAL CONFERENCES

The Wills Eye Retina Service Imaging Conference and Surgical Conferences are interactive engaging forums during which Retina fellows present multi-modal imaging of interesting cases and their management to the attendings of Wills Eye Hospital.

SATURDAY UPDATES

The Wills Eye Saturday Update Series is the premier venue for physicians from each service area to present the latest procedures, research and treatment in their subspecialty.

SHIELDS OCULAR ONCOLOGY ROUNDS

Carol L. Shields, MD, director of the Wills Eye Ocular Oncology Service, leads a master discussion of fresh cases, their diagnosis and management.

#WILLSEYELIVE

CHIEFS ROUNDS	Fridays	7:00 am ET
